

S100A4-3

Uniprot ID: [P26447](#)

Protein name: S10A4_HUMAN

Full name: Protein S100-A4

Protein existence: evidence at protein level

Tissue specificity: Ubiquitously expressed.

One antibody: S100A4-3 was tested. S100A4-3 was approved for IHC.

S100A4-3 (CAB047363)

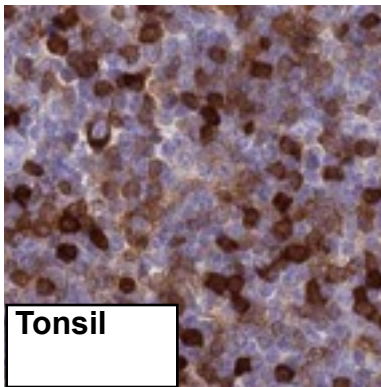

OK

*(previously recieved CPTC-S100A4-3
already published on Human Protein Atlas)*

Immunohistochemistry

IHC protocol: HIER pH 6, Dilution 1:1600

IHC test staining: **Strong staining of inflammatory cells in all tissues.**

Western blot

WB Size markers (kDa): 250, 130, 95, 72, 55, 36, 28, 17, 11

WB Lanes: Marker(1), RT-4(2), U251 MG(3), Plasma(4), Liver(5), Tonsil(6)

WB Target weight (kDa): 12, 12, 12, 12, 11

WB Validation: Supportive (Band of predicted size in kDa (+/-20%) with additional bands present)
