

## PRDX4-1 (632A11.1)

Protein: Peroxiredoxin-4

### UniProt

Function: Probably involved in redox regulation of the cell. Regulates the activation of NF-kappa-B in the cytosol by a modulation of I-kappa-B-alpha phosphorylation.  
Subcellular location: Cytoplasm.

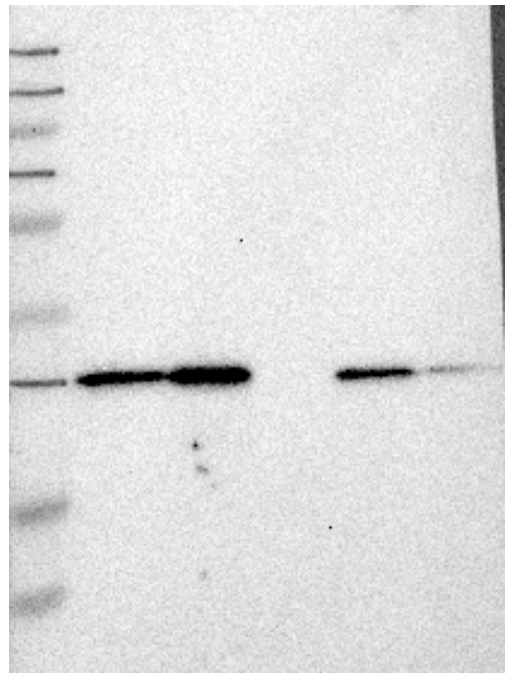

IHC. Kidney

### IHC comment

Failed due to no staining seen.

### IHC protocol

HIER pH 6  
Diluted 1:10

WB. Supportive (Single band corresponding to the predicted size in kDa (+/-20%))
