

## STANDARD OPERATING PROCEDURE

**Title: Antibody Evaluation (iMRM) by Paulovich Laboratory at Fred Hutchinson Cancer Center**

**SOP#: M-144**

**Version #: 1**

**Author: T. Hiltke**

**Date Approved: July 12, 2022**

**Date Modified:**

### 1. PURPOSE

The purpose of this document is to describe the evaluation of antibodies using iMRM by the Paulovich Laboratory at Fred Hutchinson Cancer Center for the NCI Antibody program.

### 2. PROCEDURE

Antibodies developed for the Fred Hutchinson lab of Dr. Amanda Paulovich were selected and characterized by her laboratory using iMRM.

All procedures have been developed and are performed according to their standardized methods.

Outlines of their evaluation processes can be found at:
